

## OPERATING A CONTACT SAFETY TOOL

1. The operator requires finger to be off the trigger and the nose of the tool to be placed on the work piece.

2. The contact safety mechanism is then depressed against the work piece and the trigger is pulled to drive a fastener.

3. The trigger is released after each fastener is driven.

4. Move the tool to the next location and the above procedure repeated.

## Filling The Magazine

1. Disconnect air hose.

2. Depress the magazine latch. Pull back on the magazine cover.

3. Insert a stick of fasteners into the magazine. Make sure the pointed ends of the fasteners are resting on the bottom edge of the magazine.
